

A Wife's Prayers

My husband has been battling bladder cancer for three years and has had 20 some treatments or bladder washes. Every three month they check him to see if the treatments and washes have worked. This time before he went into the OR I rubbed his stomach area with a Padre Pio relic I got in the mail and said the prayer on the card. I prayed that the Dr would call with good news this time. Three weeks later the Doctor did call to tell us there was no sign of cancer this time .I thank God and Padre Pio I know he had a hand in this.
